

# Co Monitor

NINGI SERVICES

We set the standards

## Features:

- Co Sensor 30ppm to 1000ppm
- 4~20mA output
- RS485
- Visual display
- 8-35VDC operating Voltage

## Technical Specifications:

- Operating voltage 8 to 35 VDC
- Current consumption 50mA
- Visual display 4 digital alpha numeric indication
- Communication 4~20mA or RS485 MODBUS RTU
- Infrared remote control
- Easy installation

## Protection Offered:

- Accurate Co Monitor with long term stability

## Available Settings:

- MODE: Different modes of operation
- TRIP: Trip level for CO
- MAX: 20mA Gain
- TIME: Delay time before trip
- ADDR: MODBUS RTU address
- BAUD: Baud rate for RS485
- PAR: Parity (odd, even, off)
- 4mA: Zero 4mA
- 4-20: Test 4~20mA loop
